SUMMARY

- Full Stack Developer with experience building web applications using React.js, Node.js, and PostgreSQL.
- Skilled in developing scalable backend systems, REST APIs, and responsive user interfaces.
- Strong foundation in Data Structures, Algorithms, and core computer science concepts.

EXPERIENCE

Devnix Studio

2025 – Present

Software Developer (Freelance)

Remote

- Developed full-stack web applications using React.js, Node.js, and PostgreSQL.
- Designed and implemented REST APIs for handling application data and user interactions.
- Built responsive user interfaces and improved application usability.
- Worked on modular code structure and clean architecture for maintainability.

Acmegrade

Mar. 2025 – May. 2025

Software Developer Intern

Remote

- Built full-stack features using React.js and Node.js.
- Improved dashboard load time by 25% through performance optimization.
- Developed reusable UI components for better code efficiency.

PROJECTS

AI Resume Analyzer & Career Path Advisor (Live)

- Developed an AI-based system to evaluate resumes using ATS-style scoring logic.
- Implemented keyword matching and skill extraction for resume analysis.
- Built full-stack application using MERN stack with interactive dashboard.

Online Complaint Management System (Live)

- Designed and developed a complaint tracking system with role-based access.
- Implemented REST APIs and backend logic using Node.js.
- Integrated email notifications using Nodemailer.

EDUCATION

G.L Bajaj Institute of Management

Oct. 2023 – Present

Bachelor of Computer Application

Greater Noida, UP

- **Coursework:** Data Structures, Algorithms, DBMS, Operating Systems

SKILLS

Languages: Java, JavaScript

Frontend: React.js, HTML, CSS, TailwindCSS

Backend: Node.js, Express.js

Databases: MongoDB, PostgreSQL

Core: Data Structures, Algorithms, DBMS, OOP

Tools: Git, GitHub
